

TENGCO

Supplies The Storage Tank Industry

Tengco provides the right performance and reliability for your application.

All storage tank hardware is manufactured to NSF, ANSI, SAE standards.

Our engineers can provide mechanical, industrial, manufacturing and concurrent engineering support that ultimately leads to high quality storage tank hardware at competitive prices.

With production facilities located both at-home and abroad, Tengco is positioned to be an ideal partner for your storage tank hardware needs.

Our quality control technicians at each factory, international distribution center, and domestic distribution center work to ensure a consistent, dependable product that is durable and exceeds expectations.

Top Ten Reasons to Choose Tengco:

- 1) Engineering consultation leads to innovative cost effective solutions
- 2) Streamline your supply chain
- 3) Four US distribution centers help control inventory and reduce cost
- 4) International and stateside quality control inspection labs
- 5) Parts can be manufactured under strict 9001:2015 standards
- 6) Relationships with hundreds of international factories
- 7) Zero defect quality level manufacturing capabilities
- 8) Up to the minute inventory tracking
- 9) High quality, high volume custom manufacturing
- 10) Designed to ensure optimal product quality, strict adherence to your design, minimal time to market, and a reduced cost to you
